Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 4-13, 16, 17, 19, 33 and 34, drawn to conducting a search with two or more search providers, classified in class 707, subclass 10.
- II. Claims 20 and 35, drawn to a search architecture or database schema, classified in class 707, subclass 100.
- III. Claims 21 and 23-30, drawn to providing a unified user interface and a configurable user interface, classified in class 707, subclass 102.
- IV. Claims 31-32, drawn to a method of operating a graphical user interface for defining queries receiving input through a graphical interface window and displaying a query within a window, classified in class 715, subclass 700.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation and can be classified separately.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II through IV is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
